

Viking Articulating Keyboard Mechanisms

let you swivel, tilt, lower, and lift your keyboard quickly to a position that's right for you. Retract and store your keyboard under your work surface away from your knees. The single-track design mounts quickly and easily. Locking knobs/levers secure the tilt and height adjustments. Many soft-touch trays come with a built-in fabric covered wrist support for maximum keying comfort.

▲ Fully Articulating Keyboard with Wrist Rest
