

**SHIPMENT IN ONLY
2 OR 5 BUSINESS
DAYS!**

Full Range of Sizes

A variety of Side-To-Side configurations are available to meet every need and grow with your business.

- Letter Size Depths
- Heights in 7-Tier or 8-Tier
- System Widths from 72" to 294"

Superior GLOSS-TEK™ Finish

All Side-To-Side units are painted with GLOSS-TEK. Our exclusive powder coat GLOSS-TEK paint finish provides a non-glare, fingerprint resistant raised surface.

The Side-To-Side rail assemblies, deck and carriage are coated with a non-skid textured black finish.

Six Standard GLOSS-TEK™ Colors to Choose From:

Shipment within 2 business days

- Pebble Tan
- Gray Mist

Shipment within 5 business days

- Mushroom
- Black
- Off White
- Adobe

No Maximum Order Limitations:

Any size order can be placed on *XPRESS*.

XPRESS Delivers!

Where else can you get the Quality, Performance and Value that *XPRESS* Side-To-Side delivers? And deliver, it does! *XPRESS* Side-To-Side ships in only 2 business days (Pebble Tan, Gray Mist), or 5 business days (Mushroom, Black, Off White and Adobe)!

The Side-To-Side lateral mobile system is modular and contains two or more rows of shelves that move laterally on heavy-duty rails. A Side-To-Side system can save space and also grow with your business.

SIDE-TO-SIDE

puts two rows of
storage at your
fingertips.

Side-To-Side is shown with two rows of shelving, three in the back and two in the front.

As storage needs increase, a two row system can easily be converted to a three row system (standard lead times apply to system additions.)

SIDE-TO-SIDE
LATERAL MOBILE SYSTEM

FEATURES

SIMPLE OPERATION

Side-To-Side is one of the easiest gliding systems to operate. Just a firm push on a fully loaded unit and it glides smoothly and safely to the desired position.

STORE MORE

Side-To-Side can be adapted to handle all letter size documents, office supplies, books, binders, equipment or virtually anything that must be accessed quickly.

MOVE IT - STOP IT

There are four wheels per carriage, each 2³/₁₆" in diameter.

A SOUND FOUNDATION

The deck and rail assembly of the Side-To-Side system provide a safe, heavy-duty foundation that can be adjusted for carpeted, wood, concrete or tiled floors.

SAFE AND SECURE OVERHEAD ANTI-TIP

The stationary shelving unit and the gliding shelving units are linked securely together to prevent shifting or tipping.

Conventional file cabinets simply can't match the flexibility and storage capacity of Side-To-Side. This unique lateral mobile will handle twice the capacity of conventional file cabinets, and even provide storage for precision instruments, supplies and other materials. Hospitals, dental offices, clinics and financial institutions find Side-To-Side the ideal solution for highly active records and documents.
